

Lady President's Message

It was a humbling experience to serve as one of the officers of MASCA 2009.

Our journey was interestingly challenged from the start with different factors, from the somber effects of our country's economic crisis, to an incident of fire that forced us to evacuate from our picnic site. All I could ask myself was: Is this really happening? But, by the grace of the One Who makes all things possible, the Lord Almighty, blessings did not stop coming...even pouring. He made it happen through you. And for that I thank all of you.

Your overwhelming support and concern made everything easy and attainable. You volunteered to come to our fundraisings, donated money to our causes, responded to our need even before it was expressed, you opened your homes to host our Novena, provided your ideas in making our MASCA Ball enchantingly presentable, offered solutions as the need arises, you gave your time, effort and resources by running different errands, and promoted our organization to friends that they may attend our functions and become aware of what MASCA is all about. All these, proved that compassion is innate in all of us, particularly in this community of 'cabalen' which was manifested even among friends of people of Macabebe. We are truly a community that responds to each other's needs and works together in unity. And again, I thank you.

Indeed, MASCA 09 was a great challenge and yet was accomplished. It happened...in a great year, in fact a blessed year, 2009. For it is in your belief and trust in our purpose, that made it all easy to serve, whether as a follower or as one that has to lead. And I ask you to do the same to our future MASCA officers.

Happy Fiesta, Macabebe and Maligayang San Nicolas de Tolentino!!!

Dacal pung salamat!

Jela C. Romero

2009 MASCA - Lady President
